Regulatory framework for the sale of electric energy between private individuals

New agreement seeks to promote the electrical, automotive, real estate and technological sectors through the sale of electric energy among individuals, without the need for permission from the Energy Regulatory Commission.

Eight measures to promote the financial sector

Introduced by the Bank of Mexico and the Ministry of Finance and Public Credit, measures seek to increase access to basic financial services and provide the necessary infrastructure for new investments, as well as eliminating the regulatory barriers that limit the provision of these services.

National Plan for the Production of Hydrocarbons

As part of the Government's goals in terms of hydrocarbons, the plan is aimed at increasing oil production in more than two million 400 thousand oil barrels per day by the end of the administration.

Financial plan for Tren Maya

The project will be financed through a mixed public and private investment scheme and shall consider the environment and respect for indigenous communities as its two guiding principles.

The three priority programs of the Ministry of Economy

Based on the principles of innovation, diversification and inclusion that the Ministry of Economy has established as guidelines for public policy during this administration, its Secretary introduced its priority programs.

Notice of transactions with debt securities to securities depository institutions

Resolution of the National Banking Commission establishes new deadlines and formalities for brokerages to report their debt securities operations to depository institutions.

Motor transport of hydrocarbons: new modality for Pemex

Following the shortage of fuels in various Mexican states, the Ministry of Communications and Transportation issued the regulatory framework for Pemex to carry out the motor transport of hydrocarbons throughout the country.

Conclusion of brokerage contracts by means of advanced electronic signatures

Through the recent amendment of the Securities Market Law, stock brokerage contracts may be concluded, in addition to traditional procedure, through advanced electronic signatures (AdES).
